- Place light source behind you and the camera. If the light source is in front of the camera, it will cause unwanted shadows.
- Take photos in landscape format rather than portrait.
- Take photos outdoors with a simple and attractive background free of other cars or people.
- Do not crop photos and allow plenty of space around the vehicle to ensure best website display.

Photos you provide of your vehicle will be used for listing on assiter.com and as promotional publications for the auction. Quality images maximize your vehicle's selling potential and marketability.
